August 25, 1997

To: Charles Harlow, Chairman, Public Safety Committee
Portland City Council
Philip Dawson and Karen Geraghty, members of the Committee

From: Earl C. Mercer
801 Stevens Ave., Portland, Maine 

Subject: Citizen Proposal for Stevens Avenue Traffic

The following proposal was initiated by Mr. Marvin Dionne of 20 Elmwood Street, Portland, and it contains a much more acceptable, and we believe, much more adequate proposal for improving safety on Stevens Avenue than the one which was recently abandoned.

There are 398 signatures attached to this proposal. Three hundred fifty-nine of these were personally obtained by Mr. Dionne, and the other 39 were obtained by the Park Danforth management. A copy of the proposal had been left at the front desk for residents and visitors to the Park Danforth Apartments to sign if they wished.

Mr. Dionne personally interviewed each person whose signature he obtained, and would only accept the signatures of people who told him they were residents of Portland. We assume that almost all of them are voters, although this has not been verified.

Mr. Dionne asked me to see that this proposal reached the members of the Public Safety committee at the time of the public meeting on August 25.

He also asked me to emphasize to members of the committee that the paramount concern of almost everyone he talked with was PARKING! They insisted that, whatever is done, no parking areas or spaces that currently exist should in any way be affected. They feel that parking on both sides of Stevens Ave. is vital, not only for the small businesses and offices on the Avenue, but also in order to maintain the sense of neighborhood and community for people who have their homes there.

Copies of this proposal are also being distributed to other members of the Portland City Council and to the City Manager.

Offices at 801 Stevens Avenue, Portland, Maine

Date: August 25, 1997

To: Stevens Avenue Traffic Calming Committee Appointed by Portland City Council

We, the undersigned residents of Stevens Avenue community, would like the following remedies taken to slow the speed of traffic on Stevens Avenue:

Paint lines marking travel lanes, one northbound and one southbound. On either side of these travel lanes, paint lines designating right turn lanes, bus stops and parking. Parking on BOTH sides of Stevens Avenue is an essential part of our "community" involvement in school functions, religious services, library facilities and neighborhood shops and offices. These parking spaces should be clearly marked on both sides of Stevens Avenue from Woodfors Street to Morrill's corner.

Install a traffic light at Walton Street and Stevens Avenue.

All crosswalks should be clearly painted and a sign in the middle stating "It's the law to stop for pedestrians".

Reduce the posted speed from 30mph to 25mph. Police should be visible on Stevens Avenue monitoring and "cracking down" on motor vehicle offenders especially during the morning when schools will be opening.

We, the undersigned residents of Stevens Avenue community, would like the following remedies taken to slow the speed of traffic on Stevens Avenue:

Paint lines marking travel lanes, one northbound and one southbound. On either side of these travel lanes, paint lines designating right turn lanes, bus stops and parking. Parking on BOTH sides of Stevens Avenue is an essential part of our "community" involvement in school functions, religious services, library facilities and neighborhood shops and offices. These parking spaces should be clearly marked on both sides of Stevens Avenue from Woodfors Street to Morrill's corner.

Install a traffic light at Walton Street and Stevens Avenue.

All crosswalks should be clearly painted and a sign in the middle stating "It's the law to stop for pedestrians".

Reduce the posted speed from 30mph to 25mph. Police should be visible on Stevens Avenue monitoring and "cracking down" on motor vehicle offenders especially during the morning when schools will be opening.
